

Project	Intended use for Impact statement	Impact statement:	Headline (<20 words, < 30s if read outloud):
Overjet	Written Oral Both	We help general dentists improve both practice profitability and quality of patient care. Currently many dentists don't have visibility into the drivers of their practice performance as they do not leverage data that they are collecting. We use AI to analyze their clinical and financial data to identify opportunities to improve performance metrics.	We use AI to analyze practice data to help dentists improve both practice profitability and quality of patient care.
